perform cladding

Sustainable Production + Natural Look & Feel
The future of cladding

perform cladding

Perform Cladding combines the natural appearance and texture of wood with the lasting durability of advanced capped composite, ensuring that it will retain its look and feel for years to come.

Natural appearance

Perform Cladding is available in two natural shades, each featuring a beautiful timber-like surface texture.

Easy installation

Perform Cladding effortlessly transforms any building with minimal waste and maximum flexibility.

Outstanding durability

Perform Cladding resists moisture absorption and UV fading, and it is impervious to insects and other pests.

Minimal maintenance

Simply wash with a soft-bristled brush and warm, soapy water - no staining or painting required.

Sustainable

No hazardous materials - such as benzene or formaldehyde - are used in the Perform Cladding manufacturing process.

Exceptional value

Perform Cladding is a smart, valuable investment compared to traditional timber cladding, owing to its incredible durability and low maintenance.
